**Diploma in Medical Laboratory Technology (DMLT)**

**Course Duration: 1 year**

### **Eligibility Criteria :**

- ★ For admission to the Diploma in Medical Laboratory Technology (DMLT) course, a candidate must have passed the B.Sc. examination of the K.S.K.V. Kachchh University or any other recognized University with B Group subjects  
Microbiology/Biochemistry/Zoology/Botany/Chemistry /Biotechnology/Environmental Science

### **Medical Laboratory Technician's Job Prospects:**

- ★ In the national health policy 2017, a key policy direction stated is to expand allied technical skills which include laboratory technicians to fill the gap between demand & supply. A rough estimate (2017) revealed that 64000 medical laboratory technicians are required in India.
- ★ Therefore this course will fill the gap of medical

technicians who are required in public & private health-care sector laboratories.

- ★ This course provides opportunities to the B.Sc. graduates, with any of the biological sciences as principle subject to work as a technician in the medical/clinical laboratories which deal with the analysis of clinical specimens to support diagnosis and treatment of disease, under guidance of M.D. Pathologist/Microbiologist or Biochemist.
- ★ There is increase in demand of Laboratory Technicians in hospitals, nursing homes, blood banks, pathology laboratories etc.

### **Why in Gujarat Adani Institute of Medical Sciences?**

- ★ Training by highly qualified faculty.
- ★ Laboratories are equipped with hi-tech equipment including molecular diagnostic laboratory for swine flu.
- ★ Facilities for separation of blood components by high end technology.
- ★ You can be the part of postgraduate students' (MD) research work.
